

**MODEL: CABLE TRUNKING**

**SIZE:** ‘40x80; 75x75, 80x40, 80x60, 100x36; 100x37; 100x40, 100x48; 100x50; 100x60, 100x100, 120x60’mm

<b>TECHNICAL SPECIFICATIONS</b>	
Material	Non-Metalic PVC
Resistance to Shock for installation and environment	5 J ( Heavy )
Minimum Temperature for storage and transportation	( -25° C )
Minimum Temperature for installation and environment	( -25° C )
Maximum Temperature for installation and environment	( +60° C )
Resistance to Flame	Nonflammable
Electrical Continuity Feature	Non- electrical continuity
Electrical insulation property	Nonconductive
Resistance to external factors	Resistance against ingress of solid objects:IP 4X Resistance against ingress of water: IP X0
According to suspend the system access cover	Freehand lid installation
According to electrically protective separation	No internal protective compartment
According to the intended location of the installation	. Can be Installed on Wall and Ceiling
